AMONG THE BILLS.

JOHN G. WHITTIER'S NEW POEM. For weeks the clouds had raked the hills And vexed the vales with raining. And all the woods were sad with mist. And all the brooks complaining.

At last, a sudden night storm tore The mountain vales a sunder, And swept the valleys clean before The bosom of the thunder.

Through sandwich notch, the westwind sang Good morrow to the cotter; And once again Chocorna's horn Or shadow pierced the water.

Above his broad lake Ossipee, Once more the sunshine wearing. Stooped, tracing on that silver shield His grim armorial bearing.

Clear drawn against the hard blue sky The peaks had winter's keenness; ind, close on autumn's frost the vales Had more than June's fresh greenness

Again the sodden forest floors With golden lights were checkered. Once more rejoicing leaves in wind And samehine danced and flickered.

It was as if the summer's late Atoning for its sadness, Had borrowed every season's charm To end its days in gladness.

I call to mind those banded vales Of shadow and of shining. Through which, my hostess at my side, I drove in day's declining.

We held our sliding way above The river's whitening shallow. By homestead's old, with wide-flung barns. Swept through and through by swallows.

By maple orchards, belts of pine And larches climbing darkly The mountain slopes, and, over all, The great peaks rising starkly.

You should have seen that long hill-range With gaps of brightness riven— low through each path and hollow streamed The purpling lights of Heaven,—

Rivers of gold-mist flowing down From far celestial fountains— The great sun flaming through the rifts Beyond the walls of mountains!

We paged at last where home-bound cows Brought down the pasture's treasure, And in the barn the rythmic field Bent out a harvest measure.

We heard the night-hawk's sullen plunge, The crow his tree-mates calling; The sha lows lengthning down the slopes About our feet were falling.

And through them smote the level sun In broken lines of splendor, Touched the gray rocks and made the green Of the shorn grass more tender. The maples bending o'er the gate, Their arch and leaves just tinted With yellow warmth, the golden glow Of coming antuun hinted.

Keen white between the farm house showed, And smiled on porch and trellis, The fair democracy of flowers That equals cot and palace.

And weaving garlands for her dog, 'Twist chidings and caresses,' A human flower on childhood shook The sunshine from her tresses.

On either hand we saw the signs Of fancy and of shrewdness. Where taste had wound its arms of vines Round thrift's uncomely rudeness.

Her air, her smile, her motions told Of womanly completeness: And music as of household songs Was in her voice of sweetness.

Not beautiful in curve and line, But something more and better. The secret charm eluding art, Its spirit not its letter;

An inborn grace that nothing lacked Of culture or appliance— The warmth of genial courtesy, The calm of self-reliance,

Before her queenly womanhood How dared our hostess utter The paltry errand of her need To buy her fresh-churned butter?

She led the way with house-wife pride, Her goodly store disclosing, all tenderly the golden balls With practiced hands disposing

Then while along the western hills

" More wise," she said, "than those who swarm

Our hills in middle summer, She came, when June's first roses blow, To greet the early comer. 'From school and ball and rout she came, The city's tair, pale daughter, To drink the wine of mountain air Beside the Bearcamp water.

"Her steps grew firmer on the hills That watch our homesteads over; On check and lip, from summer fields, She caught the bloom of clover.

"For health comes sparkling in the streams From cool Chocorna stealing; There's iron in our Northern winds; Our pines are trees of healing.

"She sat beneath the broad-armed clims
That skirt the moving meadow,
And watched the gentle west wind weave
The grass with shine and chadow.

Beside her, from the summer heat To share her grateful screening. With forehead bared, the farmer stood, Upon his pitchfork leaning.

* Framed in its damp, dark locks, his face Had nothing mean or common Strong, manly, true tenderness And pride beloved of woman.

She looked up, glowing with the health The country air had brought ber, And laughing, said: "You lack a wife, Your mother lacks a daughter.

To mend your freek and bake your bread You do not need a lady; Be sure among these brown old homes Is some one writing ready—

'Some fair, sweet girl with skillful hand And cheerful heart for treasure, Who never played with ivory keys, Or danced the polka's measure.'

He bent his black brows to a frown, He set his white teeth tightly.
"Tis well," he said, "for one like you To choose for me so lightly.

"You think, because my life is rude, I take no note of sweetness: I tell you love has naught to do With meetness or unmeetness.

"'Itself its best excuse, it asks No leave of pride or fashion When silken zone or homespun frack It stire with throbs of passion. "'You think me deaf and blind : you bring

'The playing of your summer sports. The spells you weave around me ou cannot at your will undo, Nor leave me as you found me.

"No mood is mine to seek a wife, Or daughter for my mother Who loves you loses in that love All power to love another! "'I dare your pity or your scorn.
With pride your own exceeding:
I fing my heart into your lap.
Without a word of pleading."

"hhe looked up in his face of pain So archly, yet so tender:
'And if I lend your mind,' she said,
'Will you forget the lender?"

"Nor frock nor tan can hid the man, And see you not, my farmer, How weak and fend a woman waits Behind this silken armor?

"I love you on that love alone, And not my worth presuming, Will you not trust for summer fruit The tree in May-day blooming?" " Alone the hangbird overhead,

Looked down to see love's miracle.

The giving that is gaining. "And so the farmer found a wife, His mother found a daughter; There looks no happier house than hers On pleasant Bearcamp water.

Plowers spring to blossom where she walks The careful ways of duty: Our hard, stiff lines of life with her Are flowing curves of beauty.

THE WEEKLY MAYSVILLE EAGLE.

VOLUME LI. MAYSVILLE, KENTUCKY, WEDNESDAY, JANUARY 13, 1869.

And all about the social air
Is sweeter for her coming.
'Unspoken homilies of peace
Her daily life is preaching;
The still refreshments of the dew
Is her unconcious teaching.

"And nover tenderer hand than bers Unknits the brow of ailing; Her garments on the sick man's ear Have music in their trailing.

"And when in pleasant harvest moons. The youthful huskers gather, Or sleigh drivers on the mountain ways Defy the winter weather—

"In sugar camps, when south and warm The winds of March are blowing, And sweetly from its thawing veins The maple's blood is flowing—

"In sommer, where some liftied pond Its virgin zone is baring, Or where the ruddy autumn fire Lights up the apple-paring—

"The coarseness of a ruder time Her finer mirth displaces, A subtler sense of pleasure fills Each rustic spot she graces.

"Her presence lends its warmth and bealth
To all who come before it.
If woman lost us Eden, such
As she alone restore it.

"For larger life and wiser claims, The farmer is her debtor; Who holds to his another's heart Must needs be worse or better.

Through her his civic service shows A purer-toned ambition; No doubt consciousness divides The man and politician

" In party's doubtful ways he trusts Her instincts to determine: At the loud polls the thought of her Recalls Christ's Mountain Sermon. ' lie owns ber logie of the heart,

And wisdom of unreason, Supplying, while he doubts and weighs, The needed word in season. 'He sees with pride her richer thought, Her fancy's freer ranges; And love thus deepened to respect Is proof against all changes.

" And if she walks at ease in ways His feet are slow to travel, And if she reads with cultured eyes What his may scarce unravel.

"Still clearer, for her keener sight Of beauty and of wonder, He learns the meaning of the hills He dwelt from childhood under.

"And higher, warmed with summer lights, Or winter-crowned and hoary, The ridged horizon lifts for him Its inner veils of glory.

The lessons nature taught him, The wisdom which the woods and hills And tolling men have brought him.

" He has his own free, bookless fore,

The steady force of will whereby Her flexile grace seems sweeter; They study counterpoise which makes Her woman's life completer; "A latent fire of souls which lacks No breath of love to fan it; And wit, that, like his native brooks, Plays over solid granite.

"How dwarfed against his manliness She sees the poor protentions. The wants, the aims, the follies, born Of fashions and conviction!

"How lie behind its accidents
Stands strong and self-sustaining
The human fact transcending all
The losing and the gaining.

"If the husband or the wife
In home's strong light discovers
Such light defaults as fail to meet
The blinded eyes of lovers, Why need we care to ask?—who dreams
Without their thorns of roses.
Or wonders that the truest steel
The readlest spark discloses?

"For still in a mutual sufferance lies The secret of true living: Love scarce is love that never knows The sweetness of forgiving.

"We send the 'Squire to General Court, To take his young wife thither; o prouder man election day Rides through the sweet June weather.

"He sees with eyes of manly trust All hearts to her inclining: Not less for him his household light

Thus, while my hostess spoke, there grew Before me warmer tinted And outlined with a tenderer grace, The picture that she hinted. The supset smouldered as we drove Beneath the deep hill-shadows; Before us wreaths of white fog walked Like ghosts the haunted meadows.

Until at last, beneath its bridge, We heard the Bearcamp flowing, And saw across the mapled lawn The welcome home-light glowing.

And, musing on the tale I heard, "Twere well, thought I, if often To rugged farm-life came the gift To harmonize and soften:—

If more and more we found the troth Of fact and fancy plighted. And culture's charm and labor's strength In rural homes united.

The simple life, the homely hearth, With beauty's sphere surrounding, And blessing toil where toil abounds .With graces more abounding. Aucedote of Willis.

Late English papers contain obituary no tices of the late George Virtue, who recently died in London at an advanced age. He was the originator, or at least a very successful projector, of the now very common practice of publishing costly illustrated works in monthly parts by subscriptions. Among the works so published about thirty years ago was one illustrative of American subjects, the drawing being by W. H. Bartlett and the let-ter-press by N. P. Willis. Some years after the publication of this work, Mr. Willis, having failed in some newspaper undertaking in New York, and being compelled to sell his Glenmary estate, consisting in good part of song birds and sunsets, bethought him that a promised dowry to his wife had never been paid by her father, a gentleman of some property living near London. So he packed up his portables, and, taking his wife and child set out for London in a sailing packet. The voyage was a long one, and, on his arrival, he had the unhappiness of learning that his father-in-law had been dead nearly a month, and that his estate was in chancery, with no chance of a settlement in many years. It was a terrible blow to poor Willis, for, after paying the carriage hire to a hotel he had but a shillingleft in his pocket, and he knew of no friend upon whom he could call for immedrate assistance. Having engaged rooms for his wife and child, he left the hotel, not knowing exactly where to go nor what to do, but having a rather uncomfortable feeling that his only means of relief lay in jumping into the Thames from the parapet of London bridge. But, as he sauntered along, his eyes happily lighted upon the signboard of George Virtue, and he walked in to let his old friend Virtne, and he walked in to let his old friend know he was in London. The moment he entered the publisher caught sight of him, and. seizing him by the hand, exclaimed: "You are just the man I want." Mr. Virtue then proceeded to say that he had just completed an arrangement with Bartlett for a series of illustrations of Irish scenery, and would be happy if the author of "Pencilings could enter into an engagement to go over to Ireland with the artist and make at the other; and then supposing we were to ask which creature occupied the middle place, sary arrangements; and the happy author; instead of jumping into the Thames, went back to his wife with a check for five hundred pounds stering in his pocket, which had been optical instrument must that be, with a few pounds stering in his pocket, which had been object to the part of the sand some disks of glass, allow one disks of glass, allow one of the lot being an extraordinarily paid to him by the liberal publisher in advance. We have perfect been put in print. We have given it precisely as it was narrated to us by Mr. Willis a year or two before his death.—N. Y. Ladependent.

Use of Geranium Leaves.—It is not generally known that the leaves of a geranium are an excellent application for cuts, where the skin is rubbed of, and other wounds of that kind. One or two leaves must be bruised and applit to the part, and the wound will be cicatrized in a short time.

Golden-Yellow hair, we are told, is produced by a "solution of arsenic with a mordant of the dydro-sulphate of ammonia."

That ought to turn something. his notes to enable him to furnish the descrip-tive lotter-press. Of course there was not the

TREASURY OF THE UNITED STATES, WASHINGTON, Dec. 26, 1868. Boston, Mass., Dec. 20, 1868.
Prominent among the new buildings is the "Sears building," now up to its third story, on the corner of Court and Washington Dear Sir.—There are so many good things and true in your letter of the 27th instant, just now received, that I should perhaps let pass what I do not approve, and thus end our friendly controversy, as I, for the want of time to continue it, had intended to have on the corner of Court and Washington streets. It is built of marble, and is being finished without regard to expense under the direction of the trustee of the Sears estate. This estate embraces a very large amount of property located in the active business portion of the city, and is valued at a fabulous sum. Joshua Sears was an eminently successful merchant of Boston. He died on the 7th of February, 1857, at the age of sixty-five, and left a property valued at \$1,600,000. He came to this city from Yarmouth, Massachusetts, when he was seventeen years old noor and done, when last I wrote you, but I cannot re-

frain from saying just one word more.
You say that "you have never been able to see how we could ask that contracts made with dollars worth seventy-five cents or less, should be payed with those worth one hundred, any more than all should that those merchant of Boston. He died on the 7th of February, 1857, at the age of sixty-five, and left aproperty valued at \$1,600,000. He came to this city from Yarmouth, Massachusetts, when he was seventeen years old, poor, and entered as an apprentice in a counting-room on Long-wharf, where he remained until he attained his majority. Business at that time was depressed in consequence of the embargo, and instead of remaining idle, he went to Cape Cod, where he taught school until times were better. Returning to this city, he formed a copart-ership with Oliver. To this my answer is, though trite, 'tis true, city, he formed a copart ership with Oliver Hallet, at No. 10, Long-wharf, and about the two wrongs can never make a right."
Because a class of creditors had an injus-

same time he became a silent partner in the firm of Burnham & Burt. At the end of three years Burnham retired, and Sears continued the business alone until his death. Mr. Sears because a class of creditors and an injus-tice done them some years since by a class of debtors is not a good reason why a class of debtors should now do another act of injustice to a class of creditors. This propositions, as a general rule, would seem so plain and simple as scarce to require another word. But when it is seen that the very persons that suffered was a man of great shrewdness, perseverance, and industry, and these, coupled with remarkable business talent, enabled him to accumulate a large fortune. Mr. Sears came near passing from earth without an heir to the first wrong may be the same persons enjoy his immense fortune. He lived a bachelor a great portion of his life, and it was not until he was past the age of sixty-two that he married. He left one child, a son, born December 25, 1855. Mr. Sears' wife died a few days after the birth of this child. That child is now fourteen recess of a contract wrong may be the same persons on whom it is now propsed to put a new injustice, the wrong becomes more clearly apparent to all. The creditor of that day may have by the very wrong act that you complain of, become the debtor of to-day, and vice versa.

Any two given men, having havings prepared to put a new injustice, the wrong becomes more clearly apparent to all. The creditor of that day may have by the same persons on whom it is now propsed to put a new injustice, the wrong becomes more clearly apparent to all. The creditor of that day may have by the same persons on whom it is now propsed to put a new injustice, the wrong becomes more clearly apparent to all. The creditor of that day may have by the same persons on whom it is now propsed to put a new injustice, the wrong becomes more clearly apparent to all. The creditor of that day may have by the same persons on whom it is now propsed to put a new injustice, the wrong may be the same persons on whom it is now propsed to put a new injustice, the wrong have by the same persons on whom it is now propsed to put a new injustice, the wrong may be the same persons on whom it is now propsed to put a new injustice, the wrong have by the very wrong may be the same persons on whom it is now propsed to put a new injustice, the wrong have by the very wrong act that you complain of, become the debtor of to-day, and vice very a new injustice, the wrong may be the same persons on whom it is now propsed to put a new injustice, the wrong have becomes more clearly apparent to all.

Any two given men, having business rela-That child is now fourteen years of age, and Any two given men, having business rela-tions then and now, may have reversed their several conditions of debtor and creditor since. The injured party may then, if your theory be carried out, become the injured party again now; and the other party, bene-fited equally by the first wrong would be again benefited. he is popularly supposed to be the richest boy in the United States After bequeathing \$107,000 to his brothers and relatives, and \$15,000 to Yarmouth, his native place, for the establishment of a nautical school, Mr. Sears provided that his son should have \$2,500 an-Because a wrong was done from the direct

have overlooked the morality that is involved, and to have entirely lost sight of the political bearing that the manner of settling the question will have upon the future of the counis valued at \$20,000,000. The trustees have a salary of \$5,000 each, and the commissions received from the collections of rents amount to a sum equal to the salary of the President of the United States. Young Sears is now in Europe, where he is fitting himself for the The money that is now represented by the national debt was loaned to the Government at a time when it was in great peril. But for the timely aid thus received, our Government would have gone out of exitence. Most of the Ghosts at the Wreck-A Startling Phe-nomena-The Spirit of the Lost of the United States and America Appear in a Column of Flame-A Wonderful Pyrofe: chnic Display. ans were made to the Government from triotic motives; many put their all into them to save the life of the nation. Others, perhaps not so patriotic, saw the strait the Government was in. They saw the nation's danger and their own. They took the risks. Had the Government failed, their whole in-As the Memphis and Cincinnati Packet Company's steamer Minneola was passing up the Ohio, Thursday night, at half-past eight o'clock, when within a short distance of the

vestment would have been a total loss. Now that their money thus saved it, is it right in that Government thus saved, to turn on its saviors and say, "Your gains are too great; we will compound the debt?" spot where the recent collision occurred be-tween the mail line steamers *United States* t. Although I agree with you in many of cour views, it is due to candor and frankness

household. Royal housekeeping and royal parties and balls must be kept up on a royal

bstract noun; we must concede the system, out reprove the individual. The same law out reprove the individual. The same law after all, applies in a variety of other instances. For example, no one likes to be called a hypocrite, yet the practice of deft hypocrisy is one of the arts of polite society; no man likes to be charged with a lie, yet a certain accepted flavor of medacity steeps every little intersocial act—every numeaning compliment every act of self-abnegation for the comfort of another, egery "not at home" conveyed to the unwelcome visitor. As with falsehood and dissimulation, so with flirtation; it is a social demerit, perchance always to be openly branded, but at the same time always to be apportioned to sundry uses and objects. In one particular however, flirtation differs from the graver social vices; for whereas hypoc mits awful havoc among the light merchan-dise of society, it is not the sufferers them-selves who complain of the privateering. The Alabama claim comes from some vengeful mother, or elder sister, or maiden aunt. For flirtation pur et simple implies triffing, and dowagers hold triffing in just horror. But as a Mawworm "liked to be despised," the jenne fille whose public career has not numbered household. Royal housekeeping and royal wo seasons likes to be trifled with. Could she be put in the witness box, with solemn obligations laid upon her to tell the truth, she would admit that it was "nice"—an adjective of large comprehension in the feminine vocabulary.

active duties of life.

Range of the Human Eye.

The range of the human eye, may be judged of from a consideration which gives us at the same time a good idea of the scope of animal structure. Supposing that an individual of every known species were to take its stand between the two species that were respectively the next larger and the next smaller than itself, the smallest known animal being at one extremity of the line, and the largest standing at the other; and then supposing we were to ask which creature occupied the middle place, having as many degrees of fize below as above,

From a Private Letter.}

[From the Xenia (Ohio) Gazette. 23d ult.] [From a Private Letter.] We crossed to Cowes and took a fly to Farringford, distant twelve miles; a glorious thy landholder, or rather a model farmer. drive across the Isle of Wight, between ivied His prosperity during the last twelve years hedges and past gardens of laurels and lau-hus often been the comment of his neighbors, rustinus. I found Farringford wonderfully and observing ones have wondered from improved: the little park is a gem of gardening art. The magnificent Roman Hexes in front of the house are finer than any I saw in Italy. We arrived about three o'clock, and were ushered into the drawing room. The were ushered into the drawing room. The house has been refurnished, and a great many pictures and statues added since I was there.

In a minute in came Tenusyon condict an anique in came Tenusyon condict and status and s Enoch Arden. We dined at six in a quaint room hung with pictures, and then went into the drawing room for dessert. Tennyson and I retired to his study at the top of the house, it pipes and talked of poetry. He asked me if I could read his "Boadicea?" I thought I could. "Read it and let me see," said he. "I would rather hear you read it," I answered. Thereupon he did so, chanting the lumbering lines with great unction. I spoke lumbering lines with great lumbering lumbe awered. Thereupon he did so, chanting the lumbering lines with great unction. I spoke of the idyll of "Guinevere" as being, perhaps, his finest poem, and said that I could not read it aloud without my voice failing me at certain passages. "Why, I can read it and keep my voice," he exclaimed triumphantly. This I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted, and he agreed to try, after we went I doubted. I doubted, and he agreed to try, after we went down. But the first thing he did was to pro-duce a magnum of wonderful sherry, thirty years old, which had been sent him by a poetic years old, which had been sent him by a poetic wine dealer. Such wine I never tasted. "It was meant to be drunk by Cleopatra or Catharine of Russia" said Tennyson. We had two glasses apiece, when he said, "To-night you shall help me drink one of the few bottles of my Waterloo—1815. We shall make a night of it." The bottle was brought and afterwards and agreement and afterwards and agreement agreement and agreement agreement and agreement agreemen the sum of \$30,000 at that period; \$4,000 an unually until he passed the age of twenty-four, \$6,000 annually until he passed the age of thirty, and \$20,000 per annum after that time. The property remains in the hands of three trustees, and the simple interest on the principal, added to the original amount, has reached the sum of \$3,300,000, while the asseed value of the real estate bringing this sum is valued at \$20,000,000. The trustees have a salary of \$5,000 each, and the commissions

and Mrs. Tennyson were crying on either side of me. He made an effort and went on to the end, closing grandly. "How can you say," I asked, referring to previous conversation, "that you have no surety of permanent fame? This poem will only die with the language in which it is written." Mrs. Tennyson started up from her couch. "It is true," she exclaimed; "I have told Alfred the same thing." After that we had more sherry—in fact, finished the Waterloo bottle; then went up to the garret to smoke bottle; then went up to the garret to smoke and talk Tennyson read the "Hylas" of The-ocritus in Greek, his own "Northern Farm-er," and Andrew Marvell's "Coy Mistress." We parted at two o'clock." WE have received from Dr. G. G McBride the

tween the mail line steamers United States and America, the watchman, Mr. Jacob Thorp, and the barkeeper, Mr. John McHuron, who were on the guards, together with Mr. Murphy, the stewart of the boat, looking out for the wreck, and desiring to see how the place looked, were startled by a pale, blue light, which rose slowly from out of the water to the hight of several feet and lasted about fifty seconds, when it disappeared. The light itself was not very bright, yet they could distinctly see the outlines of the wreck and on the bank for home distance. They were at first puzzled, but before a minute elapsed another light was seen to rise the same as the first.

The pilot who saw the first one was now also puzzled, and was ready to believe it a "hail" and about to answer it, when a third column of light, blue-light, rose nearly along side, as several of the officers saw them, and the debt?"

The twenty of the boat, looking out for the wreck, and desiring to see how the place looked, were startled by a pale, blue light, which rose slowly from out of the water to dangers be ever so great in the future, no one will be then found who will lend it a single dollar, either from patriotic motives, or at any rate of interest whatever. Every body would say the Government failed to keep its faith in the past, what assurance is there for the people that are government that does not keep faith with its own citizens is faithless, what hope is there for the gentlement concerning the difficulty at the Southern Hotel on Sunday noon, and the debt?"

Do this, and let the Government's needs or dangers be ever so great in the future, no one will be then found who will lend it a single dollar, either from patriotic motives, or at attachment aprung up between the two, and Miss Welch proposed to go away with him. In order to elude her parents, arrangements were made to get the couls for the window and met to word with him the post. We have severed to see following attachment concerning the difficulty at the Southern Hotel on Sunday noon, with the Doctor, and she asserted most posi: tively that she would do so, and that her father could not prevent her from so doing.

Welch and the Doctor, he consenting to dismiss the suit against the Doctor upon the Doctor paying the cost, and also allowing the girl to follow her choice in going with the Doctor. Welch gave the Doctor the following certificate in the presence of numerous witnesses. This is to certify that I, Thomas Welch, give my daughter to Dr. G. G. McBride, and

settles the bill of my having him arresthis Tuos. > Welch.

On Saturday night Dr. McBride got word that some of the girl's Irish friends were talking of lynching or mobbing him, and prepared for them. On Sunday about noon, as he was starting for Richmond, Ky., and while in the act of getting into his buggy, he was seized by Mike McLaughlin and Andy Lavin, from behind, his arms pinioned by his side, and thrown to the pavement and beaten severely. Three or four men were on him, while one other, Pat Farrel, stood by and kept off those who attempted to help McBride or take off The Queens Income-How Her Salary is

one particular however, fliritation differs from the graver social vices; for whereas hypocricy is scuted by the universal voice, and practiced only under the rose, fliritation falls under the ban of only one section of the community. It is generally the old folks and the married folks who bear heartily down on the tender art, which by the young is regarded as a very venial kind of naughtiness. When Cupid takes out letters of marque and commits awful havoc among the light merchandise of society, it is not the sufferers them.

hold; and when it is considered what a mul-tiplicity of officers there are connected with the court—from the lord of the bedchamber A CURIOUS FACT. -It is not I think, surprising that a man when he wants sympathy in such a calamity as that which had now befallen Phineas Finn, should seek it from a woman. Women sympathize most effectu ally with men, as men do with women. But it is, perhaps, a little odd that a man when he wants consolation because his heart has been broken, always likes to receive it from a pretty woman. One would be disposed to think that at such a moment he would be profoundcould come to him from female beauty, and that all he would want would be the softness of a simply sympathetic soul. But he generally wants a soft hand as well, and an eye that can be bright behind the mutual tear, and lips that shall be young and fresh as they express their concern for his sorrow.— St. Paul's Magazine for Decembe.

Hindoo Writing.—Writing is a curious art as practiced by the Hindoos. They may be often seen walking along their native streets writing a letter. An iron stile and a palm leaf are the implements. In writing, neither chair nor table is needed, the leaf being supported on the middle finger of the left hand, and kept steady with the thumb and fore finger. The right hand does not as with

Ar a party in New York, the host, to do the ately correct thing, hired an orchestra of fifteen

[From the Xenia (Ohio) Gazette, 23d ult.] Not many miles from Xenia resides a wealhas often been the comment of his neighbors,

self during the winter, but would return in early spring and work another year. He brought two trunks when he came there the

proceedings was still fresh, when one pleasant morning they were all gladly surprised to see their help again. He brought a large trunk, similar to one of the two he had left there during the winter. The ensuing year the young man and the father became greatly attached. In August the farmer purchased an adjoining farm, and paid for it in coah

When the year's work was completed, again were the incidents of the preceding year repeated. The young man took another note, left his trunk and went away. He only cau tionet the farmer's family as before, regard-

tionet the farmer's family as before, regarding his three trunks.

When April came around again our hero returned. In May following the farmer purchased another adjoining farm of one hundred acres, and paid for it in cash. This going and returning continued for the last ten years, up to the present December. Each year the farmer purchased more land. Each year, in December, the farmer's help left him, taking the farmer's note and every following April he returned. He rever took trunk nor baggage away, but always brought more when he returned.

Last week the help, now growing to man-ood, strong and sturdy in mind and frame, eft the farmer and took away all his accumuated baggage, and returned the several notes the farmer had given him-made a present of them to a child of the farmer. The evening before his departure, he informed his friends, who had all learned to love him, of the secret which he had so long kept to himself. He was a wealthy orphan. Doctors had told him, at the age of fifteen, that he could not live to become of age. He at once left an Eastern boarding-school, and came out here to the far-mer's home. He returned and studied during the winter, became interested in seeing the farmer increase his domains, and donated the money with which the additions were made. The trunks contained the fashionable clothing he wore during the winter months. Secresy regarding the money received by him had been enjoined upon the farmer during all the ten years; now he is released to do, or to tell

ten years; now he is released to do, or to tell all or little as he pleased.

The promised consumptive was saved; the aggravations of disease dispelled; and having grown to be healthy and robust, was satisfied with the ten years' effort to prevent his becoming an invalled for life. It was almost useless for the fermer to effect the consolidation of the virginia and Kentucky rail road. Stirring speeches were made by Messrs. Henry S. Kean and E. S. Tiller, and resolutions were passed. useless for the farmer to attempt to express favoring the consolidation of the railroad with He thinks of him now as a benefactor and son, and looks on his broad acres and can hardly realize that they are his. Were we to give the name of the young man, many of ur readers would at once become convinced of the truth of the above. This we are forbid-den to do for the present.

Exciting-Singular Scene at a Spanish Bull Fight. A Havana letter of recent date has the fol-

An incident occurred on Sanday last which created considerable excitement throughout the city, and indicates that this people are not so subservient to authority as a long course of despotic rule would naturally make them. On the day mentioned there was announced to appear in the Plaza de Toros the celebrated uchares, from Spain, known as the "King f Bull Fighters." It is related of him that e has killed some six thousand bulls without having ever sustained the slightest injury Naturally the occasion drew together the large one of nerformance arrived it was announce ed that Cuchares was sick of the yellow fever, one and could not appear. A threatening mur-home mur following. But the magistrate in atten-dance decided that function should proceed

So much nonsense is constantly talked, and such erroneous notions are held, respecting the Queen's income, that it can hardly be considered a work of supererogation to put the precise facts before the public. By an act passed soon after her Majesty's accession, in which the Queen waives her right to an interest in certain hereditary rates, charges, duties and revenues which by her perogative then went into the hotel, got his wounds, the civil list, i.e. her income is fixed at £385,000 per annum. Meany people have an idea this sum is actually paid to the Queen every year. Such is not paid to the Queen every year is not paid to the people of the people of the mean and snapped it. The attacking party hearing the explosion of the cap released their holds on the Doctor and scattering party hearing the explosion of the cap and was only prevented by an American, who seized him by the throat and compelled him to desist. Had he succeeded, the havoc would have been serious, as the bulls, which are from Florida, though small, are very fierce and untamable. It was supposed that the sickness was a mere pretense, but he has since died of of the vomito, and his body has been embalmed and will probably be sent to Spain.

Ben's Way. A person who met General Butler on New Year's Day asked the General: "Were you at the White House reception to day, Gener-al?" "Yes, sir, I was. I went to pay my re-spects to the President. I believe in making official visita." "Pleasant meeting?" some one wickedly struck in. "Yes, air; a very pleasant and cordial meeting. I never had a personal quarrel with Mr. Johnson. My pleasantness was political, not personal. lon't believe in carrying political disputes in o social life. This is the era of peace. "You demonstrate your superiority over some of our friends, General, by the course you have pursued to-day. Some of our modern statesmen seem anable to distinguish between official and personal" interposed a gentleman. "Perhaps so; perhaps so, sir. At all events I did what I believed right. I thought Mr. Johnson should have been de-posed, but the Senate wiser than I, thought

"I have an excellent remedy for bleeding at the nose, which I have never known to fail in few words, the writer fixes the point of the iron in the last letter, and pushes the leaf from right to left, so that he may finish the line. was recently shot near Denton, Texas, by Mr. Fry, on whose stock it made an attack. It had previously killed over a hundred cows and calves in the county. Swift was one day in company with a young coxcomb, who, rising from his chair, said with confident and conceited air, "I would have you to know, Mr. Dean, I set up for a wit." "Do you, indeed?" replied Mr. Dean;

then take my advice and sit down again. E. A. POLLARD has become reconciled to the two young Wises who shot at him at Bal-timore, last spring, and wishes the suits against them dismissed. Sympathy for Pol-lard in avenging the assassination of his brother, H. Rives Pollard, is the cause of the magnanimity. The King of Denmark was recently thrown from his carriage, and his attendants, when lifting him from the ground, thought at first

he was dead. He was not long, however, in awakening to consciousness. His first words, upon opening his eyes, were: "Do not say a word to the Queen!"

and pledging the liberal support of the county As FOR Edwin Booth, he really seems to be inking his great promise under loads of mil-inery. His elegance of person and graceful action still remain what hey used to be, and he wins much admiration by their display, especially among the ladies, but a man should not lose the character he is playing in his clothes, as Mr. Booth often does, now that he

has too early won fame and fortune. BEN. EGGLESTON has concluded to contest the election of Gen. Strader in the Second Congressional District of Ohio. The Radical candidate for Congress in the Ninth Kentucky District has also resolved to try his hand at the business, and will contest the election of the Hon, John M. Rice. There are other con-tests in prospect. The meaning and purpose of those are fraud on the one hand and shame-lessness on the other. Of late years contested elections have been common and profitable. Foo often are they decided not by the law of the case, nor by the facts, but by the brute force of party feeling and party discipline such are the expectations of these Radical contestants, who have not a shadow of founda-tion for the claims they sent up. They hope simply to get into Congress by means of a rope and pully, having failed to get in by the votes of the people.

A most horrible tragedy was committed in Clark County, near the viliage of Bonnettsville, Indiana, some time during last week. An old man by the name of Morgan Seillings, who lived the greater portion of his time in a log hnt off in the woods, all alone, was foully murdered by unknown parties. It is supposed that the deed was committed on Wednesday or Thursday night. The body was dragged out into the woods and covered with leaves, where it was found on Saturday morning, horribly disfigured, the flesh in many places having been cut off to the bones. The deed was committed for a paltry sum of two hun-dred and eighty-six dollars, which the old man was supposed to have about him. But in this the assassins were fooled, as Sielling had deposited the money in a bank at New Albany. He leaves a few relatives. THE agent of Helen Western says, in a com

munication just published: "The landlord of the Kirkwoon House, in Washington, insist-ed on Miss Western being removed to a 10ther room, stating to me that I had given notice of intention of leaving the previous night, which was a deliberate falsehood. I resisted all in my power, telling him that she was too sick to be moved, and if he insisted, he might have her death on his hands. It was no use; and he sent his servents up to do his bidding. He sent for policemen, when I threatened to resist any attempt to enter her room. Then, and not till then, I consent ed. After the removal she was taken with hysteria, and having taken a severe cold dur-ing the transfer from one room to the other, congestion of the bowls was the rasult, and in two days, exactly, breathed her last, passing away gently that it was impossible for me to tell the precise moment when the breath left her body. She was in possession of hersense, and conversed with me only about twenty minutes before death ensued. She had no idea that she was so near her end."

STEPHEN ABBOTT, indicted for the murder of A. M. Bronson, at New Haven, last September, was on Tuesday found guilty of murder in the second degree, and sentenced to the state prison for life.

THE NEW BAILROAD SUGGESTION, The Cynthiana Democrat has the following significant plank in the platform of its | The past year has been one of marked late Prospectus

In the matter of the outrageous extortions of the Kentucky Central railroad, we intend to fight it out on that line.

Saturday's issue, and mentioned, also, the of our Commonwealth, and universal fact that we had seen a letter from a promi- peace prevails throughout all our bornent citizen of that place on the subject of building a railroad from Carlisle, through Cynthiana and Georgetown, to Frankfort. At first thought this may not strike our active railroad men as a very feasible plan, but in the present exigency, it is a matter worthy to be considered. Harrison county is one of the richest and most progressive supplication to Him for their providencounties in the State, outside of those containing large cities, and its people are ever ready to be taxed for any enterprise that beings them further civil advancement and ernmen has undergone a new test. The brings them further civil advancement and commercial prosperty. The Kentucky Central railroad, with all its alleged extortions, has added millions of dollars to the general wealth of the county, and increased its taxable property more than three fold its former assessment. This is a matter of great opposing parties of the nation, and Commis common note, and the mere question of high rates is one of very small importance compared with the great interests secured by having the road. Scott county is also rich and liberal, and when called upon to do her share in building a railroad, will loosen her purse strings and come open-handed to the rescue.

The immense advantage of a road in this direction is apparent in the fact that a direct line drawn from Carlisle, almost due West to Frankfort, will pass nearly through both Cynthiana and Georgetown, leaving Paris and Lexington to the left and forming a direct connection with the Louisville railroad at Frankfort, and through that medium with all points South. The circumstance that we tap the Ohio river at Maysville, sixty-five miles above Cincinnati, and by a much shorter over land route, is very greatly in our favor, when we estimate the immense amount of heavy material, coal, iron, salt, lumber and all third and fourth class freights, that daily pass Maysville in boats and barges for re-shipment on the Kentucky Central at Covington. There can be no question in view, not only of the competition, but of the shorter route, that these articles can all be delivered at their respective points of destination at far less rates than those now enforced by the Kentucky Central Road. We do not wish to say any thing in disparagement of other roads, neither do we charge that the prices about which our Harrison friends are at legger-heads with the Central Road, are exhorbitant or unreasonable, on the contrary, we know nothing about them, but we do allege that our natural geographical advantages will enable us, when our road is completed, to carry freights and passengers at far less rates than the Kentucky Central can possibly stand. We ask principles of civil liberty from the in- taxation. those of our citizens who take an active interest in this matter to give it an investigation, and if our friends in Bourbon are not ready to meet us immediately at Carlisle, satisfy themselves that we can make a much better arrangement without the

If the Maysville and Paris Railroad were in operation at this time, there would be employed in the city. more than double the amount of capital, and more than treble the amount of labor. The advance in rents and real estate, would be rapid and astonishing. Money would circulate much more freely. Transfers of all kinds of property would be going on continually, and men of for the restoration to "social intercourse, paper currency. small, or moderate means would suddenly find themselves enriched. This is the experience of all cities to which the blessing of a Railroad comes. Just to think how these odd-looking, old-fashioned, worthless architectural eye-sores, that greet us now at every street corner, would be transfered into beautiful modern business houses, and residences, with the rapidity of Alladin's Magie. This result is bound to follow the advent of the railroad-nothing can prevent it. We anticipate many pleasant things by next winter, and we hope we are not mistaken in the belief that the great work will be under contract in the spring. There are fewer difficulties in the way now than ever before.

In this connection, it may be well to remember that some of the Magistrates who opposed the late favorable action of the County Court, are the most zealous advocates of turnpike roads through their own districts, and they have usually had little to impede their projects, from the general spirit of enterprize in the county.

A dispatch from New Orleans to the Courier-Journal, announces that General ROUSSEAU is lying seriously ill at that place with inflamation of the bowels and no hope is entertained for his recovery. This will be sad news to those who admire the character of this distinguished soldier. Another dispatch from Washington says intelligence has been received there that JOHN MINOR BOTTS is in a dying condition at his residece, Auburn, near Culpepper Court House. This eminent Virginian has long been prostrated by disease, but yet retains his mental vigor and takes great interest in the progress of public events. He is especially

justly demand.

FEEBLE-MINDED INSTITUTE.

It gives me pleasure to commend to your kind consideration the Institution or the Education of Feeble-minded Children, located near the Capital.

A few weeks since in company with several friends, I passed a day within the walls of this Institution. An examination which we witnessed of the interesting little inmates was full of touching interest, and awakened sad pathos in the hearts of all who were present. It is wonderful to observe, children, to whom there seems scarcely to have been granted a wondering ray of intellect, can be taught by patient and persevering instruction. I should be faithless if I did not bear a deserved tribute, which I now gladly do, to the worthy Superintendent, and his most accomplished and efficient assistants, in the persons of the Misses

This noble charity appeals most touch ingly to the sympathy of every heart, and recommend that additional buildings, as originally comtemplated, be added for the accommodation of a large number of this unfortunate class of our population. The present capacity of the building is by no means adequate to the wants of the State. It occurred to me that there was a serious defect in the heating apparatus of the building, for which a proper It is only in such an institution that appropiration will, no doubt, be made,

The reports of this survey, which were

iron ores, which accompany the coal, were

also shown to be equal, both in amount

and quality, to the best beds of similar

minerals in any other region. It is a subject of regret that the survey, though carried far enough to assure us that our Commonwealth in the most important source, of mineral wealth, is very rich, was not brought to that point where its ascertained results would have valuable data, which was collected and published by the survey, has not been put in a shape to become practically useful in the developement of the resources which it showed to exist. Such informa-You required no suggestions for me to | tion is especially needed now, for distriwith his works, any given seam of coal, or bed of ore, an accurately prepared map, with the surface of the sheet and the diagramatic sections of the rocks beneath it, so colored; as to indicate the precise nature of the minerals and their distribution beneath its square mile of territory, is required. That such a deree of accuracy is obtainable, has been clearly demonstrated by the surveys of Great Britain, Belgium, France, and other continental States of Europe. The maps and other publications of these surveys, especially of Great Britain (one of which is now in my possession), have proven of incalculable value in the rapid developement of the resources of those regions, the interior structure of which they have so clearly depicted. Indeed. I am credibly informed, that, in the coalfields of Great Britain, the accurate maps of the geological survey, prepared on a scale of six inches to the mile, are of incalculable value to the miners.

The geological part of the labor, requisite for the preparation and construction of accurate geological maps, is attended with comparatively small cost. A carefully executed, colored, topo-

graphical map of the sections of the State, of which accurate information is desired is essentially necessary, and mperatively demanded by the most aportant interests of the State. We possess no such map. Those previously published, have been based on the most cursory survey of the country represend. and are, in many partie rate. The most general features of the surface contour, matter of great importance in the execution of such internal improvements as roads and railways, are not represented. During the progress of the geological survey in Kentucky, much was done toward the preparation of trustworthy maps of the coal-fields of the eastern and western portions of our Commonwealth. This work, though incomplete, remains in such a state, that it could be readily assumed without loss of what has been already done. The need of an accurate topographical map of the Commonwealth, is so self-evident, whether the survey be resumed or not, that it would hardly seem necessary that I should further urge its importance,-Without it, the work already done by not published, will be entirely lost:

It has occurred to me, that, through your no-tion, we might have the benefit and assistance of the United States Coast Survey and their acmplished engineers in the prompt completion of this work. I have recently received reliable information, that Professor Pierce, the director of the United

States Coast Survey, has recently made his esti mates for extending its operations into the val-leys of the Ohio and Mississippi, so as to include our western streams, as far as Cincinnati to St. Louis. I am satisfied that an extension of the proposed plan, so as to include Kentucky, would ed adepts in blood.

Again and again has Executive clemency interfered to save children from such utter, hopeless, sheer, absolute ruin;

ed adepts in blood.

Again and again has Executive any county, or its officials, asking aid in the maintenance of the law, or in the suppresson of any unlawful combination obtained than under the direction of a newlyorganized State corps, and we should thus com-plete our Geological Survey, and have a new and ing the maps embodying the work of the United

States survey.

When it is remembered, that this map would

Survey, wherever any State has instituted cological survey of its territory, to co-aperate n such work, by making all necessary trianguations, and other necessary delineations, neces-early to facilitate the work of mapping the results. In addition to the inexhaustible mineral re-In addition to the inexhaustible mineral resources which the proposed topographical work would develop to the world, se contained in Kentucky, another source of wealth belonging to it, hitherto comparatively unnoticed, would then assume importance. I refer to the water-power which our streams upon every side afford. The rapid descent of many of our water-courses, while unfitting them for navigation, afford somewhat compensatory equivalents by giving value. what compensatory equivalents by giving valuable sources of power, well fitted for driving every description of machinery. This, as a source of increased wealth and population, will

at some future day become inc LABOR AND EMIGRATION. A change in the demestic polity of Kentucky towers in importance at this time over any, except the revenue, upon which you will be called to act. Every step which can be taken to invite foreign emigration to Kentucky, should be taken promptly. Europe is limited in soil, and greans under an excess of population, which America contains more land than she has laborers to called the contains more land than she has laborers to called the contains more land than she has laborers to called the contains more land than she has an effort should be tivate. It only requires that an effort should be made to bring before the people of Europe, the claims, which Kentucky presents to the emi-

tion of the grand staples of lood and its rates of taxation.
Our Commonwealth possess all these advantages in an eminent degree, and to their many others might be added.

Lying in the center of the Mississippi Valley, it has been justly styled, the "Garden of the American Union." Its area contains thirty-seven thousand six hundred and eighty square mitas, lying between thirty-five and forty demiles, lying between thirty-five and forty de-grees of north latitude. It has a desirable cli-ma e, and is unsurpassed in health. Indian corn, tobacco, wheat, mules, horses, and cattle, corn, tobacco, wheat, mules, horses, and cattle, constitute its chief surplus for export. With an inexhaustibly fertile soil, its productions of fruits, herbs, flowers, animals, or minerals, challenge competition. It abounds in forests heavily timbered; the grasses of Kentucky are justly colebrated for their nutrition, and afford pasturage to the finest sheep, eattle, horses and mules. The State is well watered, and upon its undulating slopes and southern exposure the grape vine flourishes, and is largely and positivably cultivated in certain pertions of the State. Our highways, the surest indices, of the condition and prosperity of a people, are multiplying. In 1835, Kentucky had but fifteen miles of railroad. She has in 1868, eight hundred and five road. She has in 1868, eight hundred and five miles, completed. The means and mode of dis-seminating throughout Europe, in cheap and authentic form, the inducements Kentucky holds out to the emigrant for settlement, should command your early attention.

Many applications from abroad and at home, are daily made to me, for reports and statistics as to Kentucky, which I have been unable to

A connected series of the Reports of the Auditor and Tressurer for many past years can scarcely

I recommend the establishment of a bureau of I recommend the establishment of a burcau of statistics, and a Register, who shall prepare and take charge of them. It shall be his duty to take charge of all surplus copies of State documents, maps, &c., which have been, or may hereafter be prepared. It might be accomplished at small expense, by attaching such a department to the duties of the Register of the Land Office, and increasing his compensation.

and increasing his compensation.

Or, if it be deemed more desirable, an Agricultural Bureau might be established, charged with the duty of preparing, preserving, and disseminating such statistical information, in addition to being charged with the agricultural interests of the State. This, as an instrumentality and groups of the State, would do much antirests of the State. This, as an instrument ality and agency of the State, would do much more good to the great cause of agriculture, upon which at last all material prosperity depends, than the present organization of the State Agricultural Society, which wants both power and means to make its efficiency felt. As a State agency, adapted to the object of collect-ing statistical information, ascertaining the suc-cess in various modes of culture in Kentucky in its different sections; the analysis of soils, and numerous details and experiments connected with agricultural and moch nical science, is

would doubtless prove as eminently successful here as such a department has proved to be in many of our sister States. Some department of statistics should be established, As to the mode of disseminating our statistics in Europe, it could easily be done through the instrumentality of emigration societies, and land companies, now in operation in the United

States.

Besides, we might have agencies in the principal towns in Europe with very inconsiderable cost. Proposals have been suggested to me, informally, to undertake such agencies, and to open offices in the principal cities of England and Scotland, free of compensation, save that Kentneky should furnish, gratuitously, all statistics, and pay a small amount for their advertisement in the European payers.

sement in the European papers.
I have thus endeavored, at perhaps too much length, and with the utmost freedom, to present to you, as co-workers with me in the State government, the condition of State affairs, and to offer to your consideration suggestions in regard to certain objects of interest which I think

gard to certain opposite require legislation.

If they meet your approval, you will give them shape, and take such action as shall render them efficient and practical. They have been prompted by an ardent wish for the welfare of the people of this Commonwealth, and with my solemn conviction that their adoption will be their handiness and prosfound conducive to their happiness and pros-

perity.
In conclusion, invoking the Divine blessing upon your deliberations and legislative action, I assure you of a faithful and cordial concurrence, mpon my part, in every constitutional measure tending to the welfare of the people of this Com-monwealth, which shall receive your sanction. J. W. STEVEN SON.

MAYSVILLE, KY. JANUARY 13, 1869.

LOCAL INTELLIGENCE.

A special chancery term of the Mason Cir; tents, viz: be disposed of.

Mr. L. A. Welsh, editor of the Bulletin, we

Three new gas lamps have been erected on Bridge street-one at the intersection of the "fill" with that street and one on either side that locality more pleasant and more secure.

Albert's China Palace is not only one of the argest and handsomest establishments of the kind in the western country, but its proprie- GREAT LAND SALE tor, Mr. Albert, is one of the most accomm dating gentlemen to be met with anywhere. His success as a merchant has been due in a great measure to his uniform courtesy and distinguished affability. His store contains such a variety of fine goods as are seldom brought to this country, and his elegant and tasteful disposition of them, renders a visit there pleasant at any time. Mr. Albert has an amiable weakness for birds and flowers in summer time, when the air of his store is redolent with perfume and vocal with canaries. It is no misnomer to call this establish ment a" palace," if gold and silver, crystal and china are necessary to render it so. We are very proud of his enterprise and rejoice in his succes. He deals largely in the finest imported ware and handles large invoices of staple goods. His trade extends along the river towns of the Ohio, and reaches inland as far as Paris, embracing also the Big Sandy country and the intervening points. M. R. is a 6 12 12 15 15 61 strong Rail Road man and hopes through it 88 101 94 81 71 435 to give his trade a still wider range. He understands also the virtue of printers ink, and 68 57 310 52 40 274 employs it with no niggard hand. His adver tisements occupy a column in every paper in the city, and it would be just as impossible for the Ohio river to reverse its flow as it would be to impede Mr. Alberts prosperity.

The Mammoth Cave. - Extract from a Private Letter- • • • • •

We groped about for many hours in this wonderful place. I never saw anything like it. The freaks of nature displayed here are very strange, and strike the beholder with awe. But the air is some parts of the cave is close and stiffing, and when we came out I found myself saddled with a terrible fever, which entirely prostrated me. The physician had never seen a case like it before, and no remedy he prescribed seemed to do the least seen its wonderful effects, writes Martha M. good. My life was despaired of -Mrs. Wilson, with whom I was residing, had in the house a bottle of Plantation Bitters, and she insisted a certain cure in all cases of fever, debility farm known as the "Gus Coals place," near ague, dyspepsin, &c. I had but little faith, Mayslick, was purchased at public sale about but finally consented to try it as a last resort, Amputation for Cancer.-Dr. B. C. Duke, ten years ago by Messrs. Mitchel & Wilson for In less than three hours after the first dose of Mayslick, cut off the hand of Mr. Nathan \$56 per acre, and sold last week to Mr. Myall my fever left me; in two days I was sitting up, Wells, who lives near Sardis, in this county, on Saturday last. The old gentleman, now 105 acres. No sympton of hard times, in that ever. I tell you all this that you may know how to act in any case of fever, or any similar The Ricer .- The Ohio is falling from disease. I firmly believe the Plantation

POSTPONEMENT OF THE HEN DERSON COUNTY LAND SALE .- The un Mentucky Legislature to superinteria an economic the "Henderson County Land Sale" of Wm. Mc-Lain, Esq., take this method of announcing to the public that the drawing of prizes in the enterprise has been postponed until the 1st day of September, 1889. When on the 1st, day of October last the enterprise was laid before the public, it was confidently expected that it could be concluded by the 14th of January, 1899, the day fixed for the drawing, but of January, 1800, the day fixed for the draw; several-causes, none of which were anticipat which could not be controlled by the Commis or by the owner of the property, combined (vent it. Among these we may mention the to obtain printed matter at the time contract o obtain printed matter at the time contracted for, he extreme stringency of the money market, and he distrust in the mind of the people of enterprises like this, induced by causes which are yet fresh in he recollections of the public.

Though tickets are now being rapidly sold, a sufcicient number have not been disposed of to justify transfer of the properly without bringing loss pon the owner.

The farraing lands embraced in the enterprise, early eight hundred acres of which are cleared and illable, will be ranced out for the present year—1809, tood bonds for the rest will be taken, and these conds will be assigned to the persons who draw the aid farms. bonds will be assigned to the persons who draw the said farms.

The mensy for the tickets sold is in the hands of the agents, and should any sharcholder be dissatisfied with the postponement, his money will be refunded on the presentation of his ticket.

The undersigned think it will not be amiss to say in this connection that they have no pecuniary interest in the above enterprise, nor will they have in the future. They will not receive one cont for their services, and they do not new and will not at any time, dwn, or control a single ticket in the enterprise; nor one dollar received from the sale of tickets will be used by them, nor can the owner of the property locat, use, or control any part of it until after the drawing takes place; and should the enterprise, by any unforessen contingency, prove a failure, all money received from the sale of tickets will be properly returned on presentation of the tickets to the agents from whom they were bought.

main there five minutes, -not long enough to skim over. Then set the pan in a buttery where saim over. Then set the pan in a buttery where the warmth from the kitchen reaches. Now cream must stand on the pan over thirty six hours. After each skimming, stir up from the bottom of the cream-jar. When you put in the first cream, add a heaping table spoon of sugar. This prevents its turning bitter, but if it does have a bitter, acrid taste, before churning add one teaspoonful of saltpeter, finely powdered, to accert the acrid taste, the finely powdered, to every two quarts of cream. This entirely absorbs all disagreeable flavor, which utterly ruins butter. A dairyman carrying butter to Boston was informed that his lot was not A. No. 1. With Yankee curiosity he inquired, "Why not?" and was informed that all first-rate butter brought to that market must have both sugar and saltpeter added to it while working it over. The one counteracted all bitter flavor, the other made the butter stain the awareness that only lines postures. retain the sweetness that only June pastures can give. He must add a teaspoonful of saltpeter to every two pounds of butter, and the same quantity of sugar to each pound. He benefited by the information, and his dairy ranks A. No. 1, and secures the highest prices Fanenil market affords.

The butter-maker at this season of the year must use both saltpeter and sugar, besides the requisite quantity of salt, and the butter will be greatly improved. If not so fortunate as to possess cows of the Alderney breed, coloring material must be added. Carrots are the best adapted to this purpose. Grate off the brigh orange exterior of the carrot, and if four pounds of butter are to be made, use the rind of two carrots. Boil in half a pint of milk and when the cream is in the churn, turn in straining out the carrot through a gravy strainer. This gives a fine color, and also imparts a sweet flavor, not objectionable to the most fashionable to the most fashionable to the most fashionable to the most fashionable and uninviting tallowy white butter is. The butter bill decreases perceptibly if such a quality of butter is brought to the table; but there is no need of any such butter being made at any season o

It is a great annovance to the butter-maker to churn a small quantity in a churn adapted to making ten pounds; yet one desires, at the high price butter now commands, to make all the butter possible. To those we would re-commend our way of procedure. The night before churning, the jar containing the cream is set into the kitchen near the stove, where it will receive its warmth in the morning. When ready to churn, the scalded, carroted, milk may be turned in, (we having an Alderney the none, and our butter is like golden guineas.) Then dip in a small thermometer. If it markes 56 degrees, it is ready to churn; if not set in a pan of hot water and stir rapidly with a wooden cake stirrer. If it thickens rapidly, continue in the water: in ten minutes it will be too thick to stireasily, but persevere, the butter will break, the butter-milk will flow to stir the cream, the golden butter rewards Oystor Saloons your sight. Now set in a cool room for ten out the butter, and work with butter paddle and hands. If the cream has a bitter taste you should add the saltpeter before churning. If intending to use the butter directly, you need not add the sugar, but if to be laid down for future use, add a teaspoonful to a quart use the best of white granulated sugar.

There is no need of churning one hour or two hours; butter will only gather when the cream has reached a certain temperature. At 50 degrees Fabrenheit the globules containing the butter bursts. Beating it increases it temperature, so it must not be at 60 degrees when you commence, for be it more or be it less, there is no hope of butter. This is a well established fact, and if our, dairy women will only understand it, they will not need to use up so much muscular strength. A little experience will soon teach them the requisite degree of warmth by dipping a finger into the cream; but until the experience is gained, do KEEP YOUR ASHES FOR MANUEL.

The American Agriculturist says: Weed ashes make one of the most valuable fertilizers within the reach of the farmer. The unleached article has the more potash, but the leached is thought to be quite as valuable. In leach ing they shrink a good deal, and lime is usually added, which increases their value. They are generally sold, too, at a less price. Ashes are well suited to all farm crops, and are very beneficial in the fruit yard and orchard. Most armers sell wood in the cities and villages and rather than go home empty they should carry back ashes and other fertilizers, to replace the potash, lime and phosphoric acid that have been carried off in the crops an animals sold. Ashes show immediate effect from their application, and at the same tin last long in the soil. They are very high but may be applied with equal advantages to ordinary farm crops. They should be kept harrowed into the seed bed or applied directly to the growing crops. Make a business of saving, buying and storing ashes during th winter for the next season's operations.

Ayer's Hair Vigor,

For restoring Gray Hair to ts natural Vitality and Color. A dressing which is at once agreeable, healthy, and effectual

for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.

1 13 X Thin hair is thickned, falling hair checked, and baldoften, though not always, cured its use. Nothing can restore the air where the follicles are destroyed, or the glands atrophied and decayed But such as remain can be saved for usefalness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. its occasional use will prevent the hair from turning gray or falling off, and on equantly prevent baldness. Free ron: those deleterious substances which make some preparations dangerous and quarious to the hair, the Vigor can mly benefit but not harm it. If wanted

er ly for a HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy fustice and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS. PRICE \$1.00,

J. J. WOOD & BRO, Sole Maysville, Ky.
ALLEN & Co., Wholesale agents, Cincinnati, O.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should gerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and conghs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the discusse seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly tection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure, Fever and Ague, Intermittent Fever, fill Fever, Remittent Fever, Dumbrue, Periodical or Bilious Fever, &c., dindeed all the affections which arise m malarious, marsh, or missmatic icone.

As its name implies, it does Cure, and does not Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unacclimated persons, either resident in, or travelling shrower missmatic localities, will be provided. ling through miasmatic localities, will be pro-by taking the AGUE CURE daily. Liver Complaints, arising from torpidity Liver, it is an excellent remedy, stimulating C Liver into healthy activity.
For Billious Disorders and Liver Complaints, it is ent remedy, producing many truly re-cures, where other medicines had failed, of by Dr. J. C. AYER & CO., Practical ytical Chemists, Lowell, Mass., and sold the world. PRICE, \$1.00 PER BOTTLE.
